Our 3 major cultural projects

Ambitious! is an association created in March 2020. We are an international network of women from civil society, supported by citizens and committed experts around the world.

We initiate successful projects renewed each year, reaching diverse audiences, from youth to the elderly.

Our ambition is to highlight and reward positive, ethical, and solidarity-driven initiatives

We aim to raise awareness among as many people as possible about societal issues and to take positive action.

Fighting for equal opportunity and sharing the youth's vision on future challenges.

Let's have the ambition to succeed together!

Virginie Atlan

Founder and President of Nous Les Ambitieuses!

Vivantes

To combat violence against women and children, we created a theatrical production, written and directed by Elie Chouraqui, based on real testimonies from women. The play, produced by Alexandra Fechner, is performed by renowned actors, with the presence of the 'Vivantes.' We raise awareness, highlight solutions and local associations, and drive change!

Youth Mission

Our global competition is under the high patronage of the French National Commission for UNESCO and supported by H.S.H. Prince Albert II of Monaco. It is a powerful platform to engage with international youth, raising awareness on societal and planetary issues. Our ambition: to gather and showcase their vision and plans for the world!

Audacious Actions

This concept highlights and rewards positive civic action. We value kind, ethical, and solidarity-driven initiatives among citizens that respect the planet. We encourage volunteering, commitment, and societal action at the heart of communities. Showcasing role models is our ambition! Our awardees receive a trophy created by a contemporary artist.
